Project

AUG 2022 E-Commerce API Using JavaScript, Express and MongoDB.

Developed a comprehensive E-Commerce API utilizing Express and MongoDB. Encompasses vital features including user registration, login, category management (add, edit, delete), product management (add, edit, delete), and seamless order creation. Demonstrates expertise in building a fully functional E-Commerce system.

MAY 2023 Personal Portfolio

Design and developed a personal portfolio using React. Seamlessly combined responsive design principles with interactive JavaScript elements, resulting in a captivating showcase of my skills and projects. The portfolio effectively highlights my abilities in web development while ensuring an engaging user experience.
